Convection Hot Food Modules

The energy efficient convection hot food module is an ideal way to heat and hold packaged foods for speed lines with lids off.

- Aesthetic design, three neutral colors, dove white, pewter tan and black pearl blends in with any surroundings.
- Four built-in & concealed stainless steel handles allow easy portability.
- Self-locking and self-aligning features eliminate time consuming hookup.
- Lightweight but extra-strong construction provides ease of mobility.
- Casters and brakes are almost completely concealed from patron's view.
- Soft textured surfaces and rounded corners help prevent skin cuts and clothing snags.

U.S. Patent No's. 4,008,931,244,735 AND OTHER PATENTS PENDING.

SELF-SERVICE CONVECTION HOT FOOD MODULE

The energy-efficient hot food module is an ideal way to heat, hold and serve pre-packaged "Type A" or ala carte foods.
