For Custom Logo Decorator Panels
Provide galley with a digital file of your logo. Once galley receives the digital file, the process to generate the logo panels takes a few weeks so time is of the essence to maintain an on-time shipment schedule. It is possible to use custom logos on some of the insert panels and laminate on the others to create a customized look.

For Custom Art / Design Decorator Panels
Provide galley with a digital file of your artwork. Once galley receives the digital file, the process to generate the art / design panels takes a few weeks so time is of the essence to maintain an on-time shipment schedule.

For A Specialized Custom Look With Decorator Panels
It is possible to use a variety of different color laminate panels, custom logo's and art in the recesses area to create a customized look. This can be achieved by alternating colors on every other recess, using logos on the center and/or end recesses, or any other placement pattern.

Decorator Panels: Model # 87XX
